

# @betsy — settings panel

Appears in: [DL-08](#)

[dashboard/betsy.html:777-819](#), [1410-1465](#)

"...and a settings panel was added to @betsy." ... "@betsy now has a collapsible Notifications panel with the mail fields and a toggle per trigger."

**What it shows:** The collapsible Notifications panel: mail fields, a chip per trigger, Save + Send-test buttons posting to the notifications router.
